 - ii. Line 2, replace "executabl" with -- executable --.
5. The following is an examiner's statement of reasons for allowance:

Claims 6-18 and 30-42 are drawn to an apparatus and method, respectively. The closest prior art, Johnson et al. U.S. Patent No. 5,748,741, teaches a similar device and method. However, they neither show nor imply splitting the input executable code into a first portion of input executable code comprising at least a predefined portion of a non-marked application program; and a second portion of the input executable code

comprising a remaining portion of the non-marked application program, or pre-defined executable security code. See page 23, 1st full paragraph. This feature recited in independent claims 6 and 30 renders claims 6-18 and 30-42 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
